

CASE STUDY:INDUSTRIAL

Food Processing and Distribution Facilities.

Client: South Caernarfon Creameries Ltd, Chwillog, Gwynedd

South Caernarfon
Creameries Ltd.

Description:

Over a period of years the Ap Thomas Partnership have been employed by South Caernarfon Creameries Ltd to develop their facilities at Rhydygwystl, Chwillog, Gwynedd. The projects have ranged from the construction of large cold stores and food processing buildings, to the provision of new administrative offices.

All the works have been carried out whilst the Creamery has continued in operation and without disturbance to the production processes.

The Partnership has also been able to help with the creation of record drawings of all buildings at the site to allow health and hygiene measures – in particular in high risk food processing areas – to be defined and implemented.
